BOXCOLD

Walk-In Cold Rooms

A Leading European Company in Modular Prefabricated Cold Rooms Production at High Innovative, Technological, and Food Safe Standards.

KINGSPAN

Cold Store & Insulated Wall & Roof Panels

Fire safe Quadcore insulation technology across the architectural wall, trapezoidal roof and wall ranges and cold stores.

FRIGA-BOHN

Evaporators HeatCraft

Leader in innovations, FrigaBohn provides cooling CO2 and A2L solutions. Whether you are looking for one specific piece of equipment or an entire refrigeration system, we surely have the perfect solution for you!

DAIKIN

Cooling System Solution

Refrigeration solution for all applications. Unique range with all Components built in along with Reliable & High efficiency ammonia Industrial Special Package systems.

ICEBERG

Refrigeration Equipments

Wide range of domestic and commercial refrigeration solutions for any application, with a unique selection of components, combined with our reliable and high-efficiency industrial special package systems. Our products are designed to provide superior energy savings and reliability, while ensuring optimal performance. Whether your requirements are for cold storage, process cooling, or a combination of both, we provide turnkey solution, custom design and installation services

Fire Rated
Materials

PROMAT

Fire-Resistant Coating for Steel HVAC Ducts

PROMAPAIN[®] DC1 is a special acrylic based, single component coating, specially formulated to protect steel ducts up to E120 minutes according to BS 476. high solid content, moisture resistant.

Thermal &
Acoustic
Insulation

THERMOBREAK

Thermal Insulation

“All in one” flexible thermal insulation made from physically crosslinked closed cell polyolefin foam for duct, pipe, tank, under slab, raised floor, wall and roof insulation.

Air
Handling

SOFTDUCTS

Fabric Ducts

Fabric ducts are a cost-effective solution for air distribution. Fabric ducts are hygienic, safe, practical, light and highly adaptable.

Air
Conditioning

LENNOX

With a wide range of ENERGY STAR[®]

Certified products that lower costs through reduced energy demand, Lennox is a single source for efficient, reliable HVAC solutions that professionals continue to depend on year in and year out. We continue to help businesses reduce operating costs while maintaining a high level of comfort!

Exhaust & Ventilation

SISTEVEN

Ventilation Fans

Sisteven specializes in all Industrial & Commercial Ventilation Solutions, Normal fans for residential buildings, Extractors for evacuating fumes in car parks & tunnel ventilation systems.

MERCOR

Smoke & Fire Curtains

Mercor Smoke/Fire rolling curtains are used to define smoke/Fire zone in the space under the ceiling in smoke and heat gravitational exhaust systems. Fire smoke is collected in the smoke containers, and then is removed by smoke exhaust vents. Scope includes Automatic curtains, Fixed curtain, and Draft curtains.

BSK

Ecology Unit

Industrial & Commercial Ecology Unit (Wide Range of ecology unit solutions in Kitchens, hospitals, factories & others).

Hygiene Systems

HYGIBREAK

Glasbord Composite Panels with Thermobreak Backing

HYGIBREAK is a combination of Crane Glasbord® FRP panel coated with Surfaseal® film backed with Thermobreak® physically crosslinked insulation assembled to make a unique cladding and self adhesive direct fix hygienic panel.

CRANE COMPOSITES

Glasbord® with Surfaseal® FRP Hygienic Panels

Ideal hygienic wall cladding for areas where both sanitation and durability are required. Made in the USA.
